A New Candidate for Mayor. imber of the Silk Stocking Democracy are ing of dropping S. S. Hayes since he wrote that foolish letter, and taking up E. B. WILLIAMS of the First Ward, for Mayor. Among the as offered in his favor is, that he is coon friend of Long John, from whom he ived many substantial favors. It is last spring, and should be get the nomination al, that he would secure considera ne, privately, from Long John ; enoug perhaps to turn the scale and elect him. But other side it is contended that if he Long John's influence and would probably ap-point him Comptroller—or make him City Printer, at least,—that Waxawoura would be the power behind the throne, greater than the throne itself. But to these objections it is replied, that half a loaf is better than no bread the present famished condition of the party; hat WILLIAMS as Mayor under Long John's the Democracy than the election of such men as HAINES, DOLE, GATES, GAGE or HOLDEN, and that it might be the mean under Providence of reclaiming Wantworm to the Democrati old, when the publication of the Times might the discontinued, and the Democrat resume its old place of organship, and Jackson Hall once more be the headquarters or Tammany Hall, for the lion hearted Democracy. These views of policy are said to prevail quite extensively in the party.

tion have violated the regular usage of the Democracy in regard to primary meetings, by ordering them to be held at 2 P. M., instead of in the evening according to long custom. This as the majority of them will be attending to their daily infor. The gentlemen of fortune and leisure, however, will all be on hand; while there will only be one clear of the "Great Unwashed "who can spare the time to at-tend, vis: those doing business at the Relief Society's rooms, in the capacity of mendicants.

As outsiders, we are bound to say that this sololock business is not the fair thing; it is not honorable; it is not honorable; thus to be excluded and chiseled out of their rights, are the very ones on whom the Silk Sairts rely to furnish the votes to elect the Cities. The Greecian people, after being elected out at the primary elections, will be valled upon to do the dirty work—the double alled upon to do the dirty work—the double voting, the false swearing, the unmaturalised roting; the colonizing, pipe laying, and cheating generally, and to take all the knocks, to skep in the saw dust for violating the law—but the 8ih Shirts are to dictate the candidates and how things generally. No other people in the world but the Irish would stand such treatment.

West Market Hall Reeting. West Market on Saturday evening, was filled to its utmost capacity, gallery as well as hall. So numerous an outpouring of "West Siders" never before convened in that building, at a potitical meeting. There could not have been less than files bundred men in attendance. In point of numbers, earnesiness, and cpithusi-am, it was all that could be desired. The exercises were composed of numerous short, rigorous, and pointed speeches, both in Eng-lish and Company and pointed speeches, both in Engrigorous, and pointed speeches, both in and lish and German, interspersed, with patriotic songs. In your division of the members of the "Democratic Association" into Silk Stockings and No Stockings, you classify Lambert Tree, Esq., as doubtful. In this you are mistaken. Mr. Tree is from the land of Ping Uglies. He is a sprig of the chivalry, and has been a Know Nothing until that erganization fixseled out; when he, and fifty or sixty other Dark Lanterns from the snuny Sonth, under the leadership of Judge B. Seventh Ward had a "swate" re-union in the hall of the German Theatre. An immense effort was made to get out the Germans of the Seventh, and the lager heer saloons of Weils and Indian streets were canvassed industriously from 6 to 8 o'clock for that purpose. The result was the collection of shoot 150—all from Lienerick, Tipperary and Comnaught. The Sifk Stockings obtained possession of the organization, and elected Robert Law, Chairman. This didn't go down gracefully, but it was swallowed after a fashion. Alderman La Rue was the principal speaker. He made a solsy time of it, of course. The most noticeable part of his haranges, however, was a disorganizing and inflammatory appeal against the magnates of the "Democratic Association." The speaker played in this part about ten minutes, with gratifying success, when Mr. Law rose and took the Alderman by the arm. Mr. Conley also rose and took the Alderman rm. He was followed by a German named Wethe, who modestly announced that his friends were urging him to run for City Attorney, but he couldn't think of doing so, unless he got the nomination in the regular way. Mr. Welho nearly created another row by alluding to the Seiffert case.

Ms. Patterson's Lecture on Music.—Editors Prisume:—Wm. J. Patterson, Esq., delivered a very ateresting address on Music, Thursday afternoon, before the Irving Society of the Chicago Righ School. He first briefly touched upon the history of music among the ancients from the time of Jubal to that of Guide, who, in the XIth Century invented the main features of our present musical notation Noticing Handel, Haydn, Mozart and Beethove and argued with much force that it should be made a regular branch of study in all the public schools of this country. The lecturer gave it as his opinion that when this was done we should as much surpass every other nation in muste, of we confessedly now do in fast steamers and labor-aving machinery. He alluded to the prevision resently made in the Illinois State Normal University, by which music is to be thoroughly taught throughout its three years aurriculum of study, or

the demands of the age.

Throughout the lecture, which lasted more than an hour, Mr. Patterson held the unwearied attention of his auditors, and at its conclusion he receive an unanimous vote of thanks from the Society before an unanimous vote of thanks from the Society before which it was delivered. Considering the importance of the subject in an educational point of view, and this gentleman's ability to clucidate it, we hope that the various Teachers' Institutes being held in different parts of the West will make some effort to avail themselves of his services. NAVIDATION — ARRIVALS AND DEPARTURES.—
The Milwankee Sestins! of the 23d inst. says:—
"Yesterday morning, the 22d of January, four vessels might have been seen in the Milwankee Bay, one of which, the schooner Harwest, Capt. Hounsell, with a eargo of fish from Sheboygan, came into this with a cargo of fish from Sheboygan, came into this port. Two others, apparently quite large craft, were bound for some point further south than this, and the other could be distinguished from the bluff, although some distance from shore, and appeared to be going in a northerly direction. The schooter Harvest cleared last night on her return to Sheboygau, with a cargo of merchandise from this city. This is the second time she has made this trip lately, and with as little difficulty, Capt. Hounself says, as in mid-summer. The Harvest is a neat little craft. She came in gallantly with a fair breeze, resterday morning, sailing up the river nearly to tie craft. She came in gallantly with a fair breeze, yesterday morning, sailing up the river nearly lo Walker's Point Bridge, where she discharged her cargo, and took her return freight. Today, the achooner Josephine Laurence leaves this port with a cargo of provisions for Manistee, Michigan, and no idoubt, if the weather continues as it has been, navigation will be soon extensively resumed. Uninterrupted navigation of lake Michigan at this season of the year, is, we believe, without a parallel in the records of the past, and should be preserved as an interesting historical fact."

On Thursday night inst the soler Demogracy of the Seventh Ward got together for a bit of a cascus in an Irish doggery in Nevins street. The proceedings were of the old fashioned sort—1, whiskey; 2, potsen; 3, speech; 4, Eris-ge-Bragh; 5, fight; 6 Watch House. Alderman Nichoff mounted a barrel of "high wines" and attempted to hurangue, the crowd: Nichoff being a German, was promptly hauled down by the bog sovereigns and put into the street. The proprietor of the doggery attempted

"PAY THEN TAXES AT THE WATCH HOUSE."

The Times may that the distinction made by the Taxes may that the distinction made by the Taxes may that the distinction made by the Taxes may that the Democracy pay their electron of the expense of carrying on the city government. This may be true, but it must be taken in a Pickwickian or Palstaffan sense. At the meeting on Cipbourne Avenue, Friday evening, a se date looking German explained the method in which the Democratic messes support the municipality, to attacketion. Interrupting one of the speakers, he exclaimed, "They pay their taxes at the Watch House." Of course, this reply brought down the house. It must be confessed the Democracy are very faithful contributors to the city's revenue, through the medium of the Police Cours.

The first object sought in the Survey, was to
"grasp and present clearly the great Geological
features of the district, and the prominent physical
resources which it might contain." To this end
eight accilons were made across the State from East eight sections were made across the State from Rast to West, and two from the Illinois State line to Lake Sapárior. These were made chiefly on the lines of ratiroads, and in the valleys of the principal rivers for the purpose of using, in the absence of a topographical survey, the assertatived heights and distances. In these sections are included the lines of the Racine & Mississippi and Southern Wisconsin, the Milwaukee & Mississippi, the Milwaukee & Watertown, the Beloit & Madison, and the Chicago, St. Pául & Fond du Lac Railroads; also the velleys of the Book. Wisconsin, Mississippi, Black Eartl. Public appliance and sympathy are not always traditible indices by which we may judge of the rightfulness of the acts upon which they are bestowed; but sometimes they are valuable as

THE THEN CHES OF WISCONSIS.

The ire deposits of Wisconsin are found, les, in hede or wins in the rocks where they were originally formed or introduced; led, deposited from aqueous solutions in low ground, as beg ore or other. The deposits of bog ore are very numerous in the swamps and marshes of the State, but none have been discovered of sufficient value to be profitably worked. Of the rock deposits, the most important as regards the character of the ore, the facilities of transportation and the amount of capital invested, in that of Iren Ridge, in Dodge county the property of the North-Western Iron Co. The ington Smith, of Philadelphia, who have been tried forthe murder of Richard Carter, the justification of his act by the public, was, we ta that event his wife was brought to bed of a full the property of the North Western Iron Co. turing the year, and the possession of the great nineral resources thus brought to light. We pre-ent a brief sumary of the more important facts in a Report:

Under the act of March 3,1957, affair the death of Dr. Percival, the Survey of Wisconsin, was reor-ganized by the Legislature, and placed in the hands of a Geological Commission, Prof. Daniels being constituted Geologist, assisted by Prof. E. S. Carr, of the Wisconsin University, as Chemist, and Prof. James Hall, of New York, as Paleontologist. The Survey was commenced a few weeks after the pass-age of the act.

We next some to the large deposit at Black Ri Palls, Jackson county, perhaps the most extens and certainly one of the most valuable in the Sia The ores of this region were first discovered by width. Near this is also a heavy deposit of blac calde, highly magnetic. Small voins of specula fron ore are seen also. Dr. Jackson's analyses ex iron ore are seen also. Dr. Jackson's analyses at hibit 48 per cent. of metallic tron in the hemoti-and 45 in the magnetic ore. These mines are it cated within four miles of a navigable stream, em-tying into the Madassippi. at a public meeting in the city of Keokuk, George C. Dixon and E. Harrison were appointed a com-

and authorizing the establishment of two systems of banking.

The first is the State bank system with branches, to be founded upon an actual specie basis—all the branches being mutually responsible for each other's liabilities. The second is the general banking system, providing for an issue of a circulating medium founded upon United States or State stocks in good credit and standing—regularly paying interest—their average value being ten per contum above the amount of circulation based upon them, and in the event of depreciation of ten per centum in the value of said stocks, then the State officers, who register and countersign the bills, shall require additional stock to be deposited, or a partial withdrawal of circulation.

This memorial sets forth in a clear and concise form the provisions, limitations, and guards which the Constitution throws around both systems of banking. First, all banking property shall be subject to taxation, the same as that of individuals. Second, no political or municipal corporation shall become a stockholder in any lank. Third, each stockholder is individually responsible in double the amount of his stock. Fourth, in case of insolvency, the bill

is individually responsible in double the amount of his stock. Fourth, in case of insolvency, the bill failes shall have priority over every other reclist. Fifth, the suspension of specie payment shall never be permitted or sanctioned. Sixth, the General Assembly, by a two-thirds vote, may amond or re-peal all laws for the organization of any banking or

other corporation.

The memorialists review briefly the system of bunking in the State of Indiana, and set forth the advantages and disadvantages of the State bank system. Among the advantages connected it is more favorable to the stockholder than the general canking system, larger dividends can be made upon the same capital, and consequently it presents more coverful inducements for the introduction of for-

The circulation of bills, under the State bank system, is about three dollars to one dollar of specie whereas under the other system, each dollar of issue is represented by State stock, with a value of ten per centum above the value of said circulation. In one system, one handred thousand dollars of system capital, can wield three bundred thousand dollars being represented by the specie, and two hundred thousand dollars being represented by the loans and discounts of the bank. In the other system, each dollar of circulation has pledged for its redemption, in the possession of a State officer, United States or State stocks.

The memorialists regard the State bank system.

United States or State stocks.

The memorialists regard the State bank system as a monopoly, it exists in exclusion of every other State Bank system. Its whole capital is more or less mutually pledged and concentrated, essentially, under one government and one direction—and this system when once established, if united in action, is fraught with fearful power for good or evil.

The other system is equal in its privileges. It is even it all who comply with the remissions of the

open to all who comply with the requisitions of the law and the constitution; wherever banking capital law and the constitution; wherever banking is required, there it can be located. W amount the demands of business and commerce will costain, that amount may be legally obtained under R. The memorialists are decidedly in favor and re-commend the adoption of the general banking sys-tem, as the safest in regard to its circulation, and as best calculated to subserve the interests and meet he business wants of our people, It rend ing open and free to capital under salutary lega

but the memorialists further represent that they But the memorianists further represent that they believe that both systems are authorized by the constitution, and would operate harmoniously and successfully side by side, acting as powerful checks upon each other—furnishing additional safeguards to the public. They therefore recommend the adop-

tion of both systems, under stringent protective laws subject to be submitted to the people. The The truth is the name of State Bank with branches, under our new constitution, is a mismomer. The State cannot become a stock-holder, it cannot fur-nish any part of the capital, or become a recipioni of the profits and is entirely separate from it in all its mancial arrangements. Thus it will be seen that we have triumphed against a most miscrable and wicked apportionment and an election law designed to open the door to frands, and under which frands the most appropriate and any large stack and the properties. trated to the extent of 3,000 or 4,000 votes.

The triumph was accomplished by a party greatly distracted on the subject of voting under a constitution that they hate, and leathe, and abhor to the center of their hearts, with a short, and imperfect notice that failed to reach many of the more distant districts. These causes together, it is safe to say, reduced the free state vote to the extent of 5,000 votes.

way of St. Marie and Newton, Jasper Co., to a point on the Ensiern branch of the Central R. of this State.

Mr. Kellogg, member from the 4th district in this State, gave notice of a bill making an appropriation to build a Court House, Pést Office, and Custom House, at the city of Feories. Mesers Walbridge and Leach, or Michigan, introduced bills for appropriations for the construction of harbors at the following places of Lake Michigan, vis: Muskegon, Black Lake, New Buffalo, mouth of Kalamazoo river, and South Black river; also, for the improvement of the harbors at Marquette, Ontonagos, at the mouth of Manister river, and for the improvement of Saginawiriver; and siso for the completion of the harbor at St. Joseph—all of which were referred to the Committee on Communes.

Mr. Kellogy, of this State, also introduced quite an important financial bill, for the deposit of gold and silver cots, builden and gold dust, in certain treasuries named in the bill, and the issuance of certificates therefor, convenient for use, circulation and exchange. It was referred to the Cummittee on Ways and Means.

In this conspection, we will state that thus fursince the opening of Congress, the members from Illinois have taken a leading part and a high position in the House. The interests of our growing State are well represented in this branch of the National government.—Journal.

Ms. Reven.—An article appears in your paper of the 13th linat, which tells your readers what was done, "on the evening of January 5th, 1808," by the "Congregation of Rev. A. Nisbet's Church "(?) in Chicage, in reference to the action of the 2d A. R. Pressyvery of Bill, nots, respecting a memorial sont to the Pressy tery by a minority of that congregation.

A few remarks are measury to prevent the reader, who is not acquainted with the case, from being misled by some statements made it his article.

1. Whether Rev. A. Nisbet follows the "congregation of his church" or they follow him, is a question shout which the Presbytery was not concerned. She declared that Mr. N. acted for himself in withdrawing, so: She did not declared that the steel for none but himself. She simply stated her reasons for taking into consideration the memorial presented by the minority, for whom Mr. N. dis Mr. M. was 'granted a paper, which he might use as a certificate. The Presbytery declares that if the information which she now possessor had been obtained before that paper was given, that it would not have been given until proper investigation should take place. Was this "unjust and unjustificate being over two hundred souls;" But stop, reader, till you learn is Jost, which you cannot learn smort his decument—which was concealed from Presbytery it is furnished from the re

The Cleveland Hereld says:—"The article which we gave relative to the "model artise" Spiritualists of Massechuseits, has brought to our knowledge the doings of that branch of Spiritualists in this city. And here let us say, that the large body of Spiritualists in this city. And here let us say, that the large body of Spiritualists in this city and who include respectable, reputable and virtuous citizens—utterly repudiate this consumal and devilish phase of doctrine as taught by Spear and those of his lik.

A married woman Spiritualist, of this city, who embraces the "advanced" doctrine, has lately sat to an artist for her portrait, with no covering mye her chemise. It is needless to any she is of the "free love" order, and its public advacate. This person, too, snatains the office of leaderess to an association in this city of advanced Spiritualist, the members of which organization have been consecrated by John M. Spear. Another female Spiritualist holds the office of discoveress; one man is termed the financial inni, and another the big builder man. This association is engaged in putting up a building at Randolph, Chatanque county, N. Y., which shall be a perfect copy from the numan form, minus the legs. The eyes are the sky-lights, and the house hus its front door and its back door, and all the viscera of the hody full their parts in this edifiee. The building is designed for the use of the association. These are well authenticated facts, transpiring in our midst, and, as it is the duty of Journalists, we make them public, to show the extremes to which Spiritualism leads, and to terrible evil growing out of this finanticism when embraced by bad women and bad men. He had fought the country members of the Democracy, had fought everytholy and everything, and oftentimes madened everybody, to sustain the policy of the General, and he had been successful in keeping the lead in the party. When Cass was appointed Secretary of State, a number of Michiganders being then in Washington, want, without distinction of party, and called upon him. Story was among them. No sooner had they been unhered into the room than the General, without noticing the others, made for Story, and fell upon his shoulder and wept. He confessed to a large debt of gratifinde to Story, which he was anxious to pay, and begged Story to solicit any favor from the government which was within the reach of Cass had got through with his much ado, Story coolly replied, "Well, General, I whick I have done for you some, and if you whill have all give me a copy of Japan Commodor Rappears that a high spirited horse, driven by two young mea on the moraing of the 15th inst., between 3 and 4 o'clock, when near the village of East Corinth, became frightened, and succeeded in detaching himself from the sleigh. He ran most furiously through the street antil, for what reason can hardly be imagined, be turned his course directly toward the door of a house occupied by Mr. B.—, a merchant of Corinth, crossing a field to reach the house. Striking with great force against, the door, it gave way, and the horse made his way through the hall into the kitchen. Out of this kitchen opens a door into a small bedroom, occupied at this time by Mr. B.—, his wife, and three children. Mr. B. and two children the other. The furniture consisted of two beds, a crib, mirror, cleck, chairs, &c. The horse, ent corners of the room, demolished the mirro and clock, and finally took refuge in the corne of the room, shivering with fright. In coming in contact with the mirror, he seems to have received a severe wound about his mouth, from ster, and in the State addressed him a public ter, and with sarcasm, invited him to a privace mnor at "The Shades," a public salcon in the state of the salcon in the salc

** Rev. Solomon Spaulding, a graduate of
Dartmouth College, was distinguished for a
lively imagination, and a love for history. He
lived in a part of Ohio, abounding with mounds
and the ruins of old forus and took much interest in the study of the antiquities. To beguile
his hours of retirement, he conceived the idea
of giving a historical sketch of the lost ruce,
about which there was so much mystery.

It was of course a fanciful undertaking, giving wide scope for the creatise of imagination,
and tempting him to include in an antique
style while describing ancient things. The Old
Testament containing the most ancient books
in the world, he found it convenient to imitate
its style. He therefore launched out at will
into the region of free historical romances.
